EXPERIENCE

Salesforce SmartBridge

May 2025 – July 2025

Intern

- Built a custom Salesforce CRM for a fashion brand with Customer, Order, and Inventory modules.
- Configured role-based security using profiles, permission sets, and role hierarchies.
- Automated order confirmation and low-stock alerts using Salesforce Flows.
- Designed Lightning UI pages and dashboards for sales and inventory tracking.

PROJECTS

ML-Based Personalized Food Recommendation System

- Developed a food recommendation engine using a dataset of 1,014 food items and user health and preference data.
- Performed data cleaning, feature engineering, and PCA-based nutritional embeddings.
- Trained ML models including Random Forest, Gradient Boosting, and Stacking Regressor for calorie prediction.
- Built a hybrid recommender combining taste similarity, nutritional similarity, calorie matching, and health constraints (diabetes, BP, allergies).

IoT-Based Smart Tamper Detection System

- Developed a real-time tamper detection system integrating weight sensors, RFID authentication, and LiDAR for secure asset monitoring.
- Implemented microcontroller-based sensor data acquisition and transmitted telemetry to a React + Tailwind web dashboard.
- Built interactive visualizations for device status, tamper alerts, and geolocation tracking using charts and maps.
- Designed event-driven alert logic to detect unauthorized access, weight anomalies, and physical displacement.

EDUCATION

SRM University, AP

2023 – Present

B.Tech CSE (GPA: 8)

Sri Chaitanya Jr College

2023

BIEAP (942/1000)

St. Francis de Sales School

2021

SSC (592/600)

CERTIFICATIONS AND ACHIEVEMENTS

- Tech Expo Winner: Won first prize in National Level Tech Competition organized in SRM University.
- Code4Change Participant: Won 3rd place in Health and Fitness Track in the national level hackathon organized in KLU.
- Drona and SkyQuest 2.0 Participant: Participated in a Drone Development workshop followed by an hackathon.

SKILLS

Languages : C, C++, Java, Python, HTML, CSS, JavaScript

Database : MySQL, PostgreSQL

Coursework : Data Structures, Algorithms, Machine Learning, Database Management, OOPS, NLP, AI
